

THE SMART WAY  
TO GROW  
YOUR **BUSINESS**

*Currency Risk Management can be a hidden cost for SMEs. It can have a dramatic impact on your business profitability and margins.*

If you're transacting overseas, exporting or importing goods and services, daily volatility in foreign exchange rates can hurt your bottom line, adversely impacting your cash flow, sales revenues and gross margin.

Dealing with this volatility can be costly and stressful.

*For an awfully long time, daily bookkeeping has been a manual chore. Xero turns this fact on its head.*

Have you ever wondered how a 21<sup>st</sup> century business can utilize all the latest business tools? Xero Accounting is the industry leading online accounting software that allows for cost savings in yearly bookkeeping and business administration costs of up to 80% in comparison to traditional manual data entry systems.

Come and see how with the power of Hedgehog FX and Xero Accounting, can transform your small business into the profitable small business you have always wanted.

COME AND SEE WHAT MAKES A GOOD SYSTEM GREAT - FEBRUARY 28<sup>th</sup>, 2012, at Monash Enterprise Centre, at 4pm to 5pm.
